Professional Summary

I am an Electronics and Communication Engineering student with a strong interest in the IT sector. Along with my core engineering foundation, I have developed skills in Python full stack, HTML, CSS, JavaScript, and Git/GitHub. I enjoy problem-solving, building responsive web pages, and learning new technologies. I am seeking an opportunity in IT where I can apply my technical skills and grow as a software professional.

Technical Skills

- Programming Languages: Python, JavaScript
- Web Technologies: HTML 5, CSS3, Responsive Web Design
- Frameworks: Django (Basics)
- Databases: SQL (Basics)
- Version Control: Git, GitHub
- Tools: VS Code, GitHub

Intern Work Experience

*Python Virtual Intern | EduSkills |
Remote | April 2025 – June 2025*

- Completed daily coding tasks on Python fundamentals including loops, functions, and data structures.
- Developed Python programs to automate basic operations and problem-solving tasks.
- Applied concepts such as file handling, exception handling, and modular programming in mini-projects.
- Managed deadlines effectively, demonstrating strong time management and self-discipline.
- Participated in online sessions and assessments, enhancing independent learning and documentation skills.
- Strengthened understanding of object-oriented programming (OOP) concepts through practical implementation.
- Debugged and optimized code to improve program efficiency and performance.

Education

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering
SVR Engineering College, Nandyal
2023 – 2026

Diploma – Electronics and Communication Engineering
Brindavan Institute of Technology and Science, Kurnool
2020 – 2023

SSC
VVS Rural School, Kurnool
2020

Certifications [Link](#)

Python Fullstack Development

- Completed structured training covering Python fundamentals, data handling, and basic database concepts
- Applied Python for logical problem-solving, data validation, and structured task execution

Web Development

- Gained foundational understanding of web technologies and data flow
- Developed skills in structured documentation, interface logic, and accuracy-focused implementation

Soft Skills

- Problem Solving
- Communication
- Time Management
- Adaptability
- Teamwork

DECLARATION: I hereby declare that the information provided above is true to the best of my knowledge.
